Hyper Plan combines the simplicity of sticking colored notes to the wall with the flexibility of software

Organized

Plan your work and life in an easy to understand form. See at a glance what needs doing next.

Simple

If you have ever planned something by sticking notes to a wall, you pretty much know how to use Hyper Plan already.

Visual

A large part of the human brain is dedicated to visual processing. Make the most of this built-in hardware.

Flexible

Choose whatever properties you wish to visualize. Change between different views of your plan with a mouse click.

Powerful

Categorize items however you want. Color and group by category. Display a timeline. Show totals and charts.

Unlimited

You are no longer limited by the size of your wall or the sticky notes you have available. Handle thousands of cards.

Private

No need to entrust your valuable data to a third party.

Shareable

Works well in a multi-user, multi-computer, networked environment.

Dependable

Doesn't require an Internet connection or a server.

所有软件资源 100%安全 已检测 无病毒 无篡改
