BatSoft Library v4.2 (23 Aug 2021) Retail Support D10.4 Sydney

2026-09-20 07:31:46

This is my personal library, which I have accumulated over the past 20+ years of Delphi. These classes and routines are hoped to be as helpful to others as they were to me.

This is donation-ware. You can use it for personal and commercial projects. If you would like to support me in updating it, please email me or donate to my Delphi license.
