Blender - Blender Geometry Node Terrain Generator:

The Blender Geometry Node Terrain Generator is an advanced tool designed for 3D artists, game developers, and digital landscapers to effortlessly create detailed and customizable terrains in Blender. Using a curve-based system, users can easily generate terrain meshes and fine-tune mesh thickness, resolution, and subdivision levels. The tool also includes automatic texturing, applying grass, dirt, and stone textures based on mesh angles, with options to adjust blend overlays for refined textures.
