Unreal engine - Medieval Tavern + ULAT (Modular, Medieval Interior Exterior, Medieval) v5.3: Introducing the Medieval Tavern Environment, a meticulously crafted setting comprised of 123 unique meshes, showcasing high-quality assets suitable for Game Ready projects. This immersive environment, developed under the creative direction of the Leartes Team and brought to life by talented artist Saveliy Rehels, offers a captivating atmosphere with attention to detail and AAA-quality visuals.

This package includes the Ultimate Level Art Tool (ULAT), originally priced at \$100. ULAT facilitates the rapid creation of custom modular buildings and provides a unique method for seamlessly populating scenes. By purchasing this product, you also gain access to ULAT through a ticket creation process, enhancing your toolkit for level design and development.

Each asset within the Medieval Tavern Environment is meticulously designed, with controllable parameters available in material instances for effortless customization. You can tailor assets to your project's specific requirements by adjusting textures or fine-tuning material properties.

Furthermore, the environment boasts a variety of texture sizes, including 4096, 2048, and 1024, ensuring crisp and detailed visuals across different platforms and display resolutions. With its high level of detail and optimized performance, this environment is ready to be seamlessly integrated into your game or virtual production project.

Immerse yourself in the ambience of a medieval tavern and bring your virtual worlds to life with this comprehensive environment pack. Whether you're a game developer, level designer, or virtual production artist, the Medieval Tavern Environment provides the necessary assets and tools to elevate your creations to new heights of realism and immersion.
