How to Install Procreate Brushes (.brush and brush set)

This option is available If you own an earlier iPad or Procreate Version 4.0 and earlier. Here's how:

- Download the folder .brush file to the folder you have on your iPad
- Navigate to the folder and select .brush files
- Tap and hold using your fingers or an apple pencil
- Select "Share" from the menu
- If you are unable to find the choice "Open in Procreate" is not present, click "More"
- Scroll down and locate"Open in Procreate" and click on it "Open in Procreate" and click it.
- Start your Procreate project and click on the brush icon at the top of the right-hand corner.

Or

- Open Procreate, select the new collection, brush, and import
- Locate the folder that contains download brushes select it, and then click Add to Procreate.
