### What is Botanical Illustration – Line Art in Procreate?

Botanical Illustration – Line Art in Procreate refers to the artistic practice of creating detailed and stylized drawings of plants, flowers, and botanical elements using the digital illustration app Procreate. This process typically involves using the app's various brushes and tools to produce intricate line art that captures the delicate details and characteristics of botanical subjects.

Botanical line art in Procreate allows artists to combine traditional illustration techniques with the convenience and versatility of digital tools, creating visually appealing and detailed representations of botanical subjects.
