Aescripts – Feedback Pro v1.2.1 for Premiere Pro: Controlling feedback and versioning In Premiere Pro has never been more simple!

- Create a new version in one click.
- Copy the feedback of any source of text.
- The new name of the sequence will be a "V+1" at the end and the current date will appear at the beginning (Theses features can be customized)
- All feedbacks are recorded so that you can keep track of your progress.
- Sort in any or all.
- Markers can be enabled in the timeline.
- Automatically switch between projects or sequences.
- The time is automatically recognized.
- You can easily jump between each feedback on the timeline.
- Export and merge your current sequence into an individual project.

Customization

You can change the settings within your extension. (5 settings available). Refer to the documentation for additional details.
