Archipelago Quest 36 — Botanica captures the essence of longer days and the awakening of nature with its vibrant and revitalizing presets.

How do users set their images to warm and glowing with backlight, direct light portraits using the effects tool in Lightroom?

They can edit their pictures beautifully using "Archipelago Quest 36 — Botanica".

The collection features two color presets, a soft black-and-white preset, two creative profiles, and additional editing tools. Users appreciate its one-click simplicity, enhancing spring photography with warm, glowing backlit images, moody direct light portraits, and vivid spring greens. The layering effects add a dreamy quality, making it an ideal choice for spring sessions.
