

POTATOJET ORIGIN8 LUTS

2025-02-10 17:14:59 [label](#) [我要反馈](#) [下载页面](#)

These are my Original eight LUTs created to take photos from my DSLR and smartphone appear like my massive film cameras. I now use them to rapidly grade my YouTube videos.

They're in .CUBE format and there is a preferred and LOG model on hand if you are filming in a Flat image profile.
