

Sound Effects -Urban Ambience

2025-02-10 17:09:58 [label](#) [我要反馈](#) [下载页面](#)

Sound Effects -Urban Ambience: Create real urban soundscapes and scenes with rich recordings from the Urban Ambiences sound library. This library includes professional sound recordings that have a total duration of over four hours and fifty minutes, featuring backgrounds, passing trains and cars, sirens and horns, church bells, construction site generators, escalators, and generators. Different crowds, restaurants, and city parks with chirping birds.

Gfx plugin details of Just Sound Effects Urban Ambiences WAV-ViP

The product is in the **SOUND EFFECTS** category, for more information about this post you can click on the home page link in the sidebar.

AN INDUSTRIAL JOURNEY

While working on the project, we visited several cities in Germany, mainly in the Ruhr region of North Rhine-Westphalia. We picked this area due to its unique tradition and high density. With over 5 million people in the area, plenty of infrastructure, and always near nature, we captured a variety of stunning urban and natural textures.

INCLUDED SOUNDS

- Urban 53 Files 135 Minutes
- Traffic 32 Files 71 Minutes
- Public Places 13 Files 26 Minutes
- Construction 11 Files 23 Minutes
- Walla 6 Files 11 Minutes

what is Sound Effects - Urban Ambience?

"Sound Effects - Urban Ambience" refers to a collection or category of audio recordings that capture the ambient sounds of an urban environment. These sound effects are used in various forms of media production, such as films, television shows, video games, and radio broadcasts, to create a realistic and immersive auditory experience of city life. Urban ambience sound effects can include a wide range of sounds that collectively make up the background noise and atmosphere of a city or town.
