Important: ONLY for ADOBE PHOTOSHOP CC Version

NEW Engraving and Halftone Creator

Simple mock-up that works on principle. It's easier than you think. Any version or language of Photoshop. A mock-up-based principle. Watch the video

Give you a Photoshop file that can create an amazing Engraving as well as a Halftone effect on your photos. From image to Engrave image in just three easy steps! Then open The Photoshop file, then add your photo to the smart object, and then take it to Engrave! Editable options in all aspects. Four types of engraving: horizontal, vertical, and angled, as well as Wavy lines engraved (Currency fashion). Also, an amazing halftone to create a realistic "newspaper print" effect.

1. PSD files, which have standard and small-sized dots and lines

Instructions for use

1. 5000x5000 pixels.
