Fiery Liquid Text Effect - 280526323:

The "Fiery Liquid Text Effect" is a versatile Photoshop asset designed to create striking visuals for branding or presentations. Utilizing Smart Object Layers, you can easily customize the effect by double-clicking the thumbnail, replacing the placeholder text with your own, and saving the changes.

The asset includes a high-quality PSD file (4500x3000 px, 300 dpi), three color options, and three different effects.

It supports Adobe library fonts and any other typefaces, adapting seamlessly to your text.
