What is Lightroom Mobile & Camera Raw Preset?

Lightroom Mobile and Adobe Camera Raw (ACR) presets are pre-defined sets of editing adjustments that you can apply to your photos to achieve specific looks, styles, or effects. These presets are designed to make the photo editing process more efficient by allowing you to quickly apply a series of adjustments with a single click.

Both Lightroom Mobile and Camera Raw presets offer a convenient way to achieve specific looks or styles in your photos without having to manually adjust every setting. Many photographers and creative professionals develop and share their own presets, and you can also find a wide variety of presets available for purchase or download online to enhance your photo editing workflow.
