NOSTALGIA 2 humanvideoco: "Step into the retro vibes with our 40+ motion titles inspired by the iconic aesthetics of the 70s and 80s. Easily tailor the text, font, color, and more to your liking with simple customization options, making it a breeze for Premiere Pro and After Effects users.

Perfect For:

- YouTube Content
- Shortform Social Media
- Lyric Videos
- Commercials / Promos / Ads
- And More!

Inspired By:

- The Weeknd
- Top Gun
- Stranger Things
- Back To The Future
- Your Dad's VHS Collection

40+ Ways to Time Travel: Tap into the potent tool of nostalgia with designs directly inspired by authentic 70s and 80s movie and TV title sequences. Additionally, enjoy a touch of modernity with throwbacks to popular contemporary references such as Stranger Things and The Weeknd.
Revitalize your projects with the retro charm of these motion titles, effortlessly merging the best of the past and present in your creative endeavors."

- Effortless Customization: Modify text, fonts, colors, and more with just a few clicks, even for users with minimal Adobe experience.
- Compatibility: Suitable for Adobe Premiere Pro (MOGRTs) and After Effects (Project File), offering flexibility in your editing software choice.
- Quick Export: Download and export your creations in just a few clicks, streamlining your workflow.
