VisioForge Media Player SDK allows developers to easily integrate audio, video, and DVD playback in their software programs. Additionally, it lets you draw overlay bitmap and text within the movie with effects.

Integrate video, sound, and DVD playback in your Delphi applications.

VisioForge Media Player SDK for Delphi is a software development kit that enables programmers to integrate audio, the video quickly, DVD, Blu-Ray, and community flows playback in their software programs. Furthermore, this program also allows you to utilize bitmap and text within the movie files with different special effects. This program development program eases the job of developers and makes their applications better.

VisioForge Media Player SDK for Delphi is useful software, and several developers use it in creating the program. Additionally, it supports 4K and 8K files. It assists in video processing and has many impacts such as video foil, brightness, contrast, saturation, color; it aids in resizing the movie to some resolution, DirectShow 3rd party service, etc... Plus, the aids in sound processing and its options like quantity booster, equalizer, 3D bass, etc... The VisioForge Media Player SDK is an astonishing kit for creating a software program.

VisioForge Media Player SDK for Delphi Great Features:

- Supported file formats (System codecs / DirectShow)

  - video formats - AVI, MPEG-1/2, WMV, 3GP, QuickTime MOV, MPEG-4/H264 (AVC), any other if you have a corresponding decoder

  - audio formats - WAV, MP3, OGG, WMA, AAC, any other if you have corresponding decoder

  - DVD

- Supported file formats (FFMPEG / LAV engine)

  - video formats - AVI, MPEG-1/2, WMV, 3GP, QuickTime MOV, MPEG-4/H264 (AVC), FLV, ASF, MP4, MJPEG, DV, MKV (Matroska), Real Video (full list)

  - audio formats - WAV, MP3, OGG, WMA, AAC, AC3, Real Audio, ADTS, NSV (full list)

  - Blu-Ray

- Supported file formats (VLC engine)

  - video formats - AVI, MPEG-1/2, WMV, 3GP, QuickTime MOV, MPEG-4/H264 (AVC), FLV, ASF, MP4, MJPEG, DV, MKV (Matroska), Real Video (full list)

  - audio formats - WAV, MP3, OGG, WMA, AAC, AC3, Real Audio, ADTS, NSV (full list)

- Video processing and effects

  - graphic overlay

  - text overlay

  - video transparency

  - pan / zoom

- brightness, contrast, saturation, hue, etc.
- inverted colors
- greyscale
- deinterlace
- denoise
- fade-in / fade-out
- rotate
- resize to any resolution
- 3rd-party DirectShow filters support
- more than 30 other effects

- Audio processing and effects
  - volume booster
  - equalizer
  - 3D-bass system
  - normalization
  - auto / manual gain
  - a lot of another effect

- File playback from the memory
- Multiply output screens support
- Frame capture to Delphi TBitmap, Win32 HBITMAP
- Frame capture to BMP/JPEG/GIF/PNG files
- OSD (On-Screen Display)
- Audio streams from additional audio/video files
- Subtitles support
- MMS / WMV / RTSP / RTMP / UDP network streams playback
- Encrypted video support
- Motion detection
- Chroma-key
- x64 native version (FFMPEG-related features are not supported)
- Frame step support
