

Soundtrack Loops Foley V2 Trash Sound Effects and Rhythms WAV

2025-02-10 16:39:17 label 我要反馈 下载页面

Soundtrack Loops present Foley V2 Trash Sound Effects and rhythms. The producer Edgar Lopez is back, with Foley V2: Trash and that means we've got an exciting new series to play! The series began by introducing Kitchen Things (the debut title) we were introduced to a new concept: the Foley and music library that fuses music and Foley. An amazing idea brought to life by a gifted producer Kitchen Things is by turns intriguingly mysterious, fascinatingly bizarre, and hilarious. For Foley Version 2: Trash we're treated with the same technique loops (80 with a speed of 150 and 130 BPM) and one-shot (42 to be precise). The primary draw is the percussive hits on bottles, cans, buckets, and much more. The thumps, thumps, clangs, booms, and ratchets, made by striking objects made of household materials using sticks and hands, are incredibly round, deep, and rich. They are accompanied by great and detailed transients. They're actually musical. The beats produced by these sounds are simply funky, with a vibe and sparkle that perfectly communicates the language of music. Trash musically sure, but it's so fluid and pleasing to the ears! This brings us back to the main point--impact sounds that work well with Foley as well as music. You'll be equally at eavesdropping Foley sounds on your timeline, and then importing the single shots to your drum sampler to create completely complete kits, or even using the loops from your music to create complete beats. In all cases, you'll be on to some amazing sounds. Get going!
