Kitbash3D - Victorian:

This complete asset kit is an extensive list containing over 20,000 AAA-grade assets specifically made for constructing urban terrains for both the historical and modern periods. S ideal for virtual production for movies, games, or concept design, it comes with perfectly crafted elements such as Victorian architecture, bridges, cathedrals, parliament buildings, and clock towers. The assets allow creators to design entire cityscapes that range from London, Washington D.C., and Melbourne from the 18th and 19th centuries to modern-day metropolitans. This kit allows for the fastest creation of richly detailed and story-full environments by providing peerless compatibility and streamlining the concept and construction process more than ever.

- **20,000+ AAA-grade assets:** Designed by industry leaders for advanced virtual production.
- **Historical and modern settings:** Perfect for recreating Europe in the 18th and 19th centuries to modern contemporary cities.
- **Meticulously crafted:** Designed with intricate details to bring realism to urban environments and landmarks.
- **Seamless integration:** Perfect compatibility with existing projects, allowing for rapid environment design.
- Simplified environment and story creation processes greatly expedite evocative immersion into gaming, movies, or virtual reality.
- There is a broad range of architecture, from Victorian-era restaurant blocks to modern mansions, cathedrals, parliament houses, clock towers, and bridges.
