Halloween Logo Event Promo for After Effects (VH 54499763) - AE Project:

The Halloween Logo Event Promo is a dynamic action template designed to showcase your logo in a Halloween-themed style. Ideal for social media videos, brand presentations, and company advertisements, it allows users to easily add their logo, adjust taglines, and customize colors to create an engaging intro.

- **Full-Color Controls:** Users can easily customize the colors of the logo animation to fit their specific branding or theme.
- **Font Link Included:** The package includes a link to the font used in the animation, allowing for consistent typography.
- **Compatibility:** The animation works seamlessly in After Effects 2021 and above, ensuring it is accessible to users with recent versions of the software.
- **Creative Halloween Theme:** Designed specifically for Halloween, the animation offers a fun and festive way to present logos during the season.
- **Easy Customization:** Users can modify elements of the animation without extensive After Effects experience, thanks to the intuitive setup.
- **Dynamic Animation Effects:** The logo animation includes engaging effects that capture the spirit of Halloween, enhancing visual appeal.

Package information

This After Effects project, published on September 26, 2024, includes resizable files with one media placeholder and six text placeholders, compatible with After Effects CC.
