

Aescripts – Text Replacer for Premiere Pro v1.5.0 Win/Mac

2025-02-10 17:11:59 [label](#) [我要反馈](#) [下载页面](#)

Text import and export to Premiere Pro from your After Effects templates (.mogrt).

It works with templates (.mogrt) designed by After Effects. Not compatible with templates (.mogrt) made in Premiere Pro

- Premiere: 2022, 2021, 2020

FEATURES

- Option to open spreadsheet after export
- Option to open report after import
- Enable extension to run in the Beta version of Premiere Pro
- Import and export .xls and .csv files
- Import can now find mogrt clips even if they moved in the timeline after spreadsheet export
- Confirm before overwriting the existing spreadsheet
- User report file with date appended to file name
- The new optional column "Start Time"
- Create mogrts from srt file
- Export text from mogrts to srt file

UI

- Change the order of IMPORT and EXPORT tabs
- Move "After Import" and "After Export" options to the PREFERENCES tab
- Show the name of the loaded spreadsheet

BUG FIXES

- The first property from mogrt added last to the spreadsheet
- Not importing text in Premiere Pro version 14.3
- Mogrt font adjustments lost when importing text
- The first property from mogrt added last to the spreadsheet

COMPATIBILITY

- Now runs in Premiere Pro 2022
