### Blender Market - Zen Sets v2.4.3.2:

Introducing Zen Sets, the must-have Blender add-on that revolutionizes the creation, organization, and visualization of Vertex Groups, Face Maps, and custom Zen Sets Groups. Tailor your experience by effortlessly selecting Objects, Collections, and Mesh Elements.

- Comprehensive Group Management: Create and manage Vertex Groups, Face Maps, and Zen Sets Groups based on your selection of Objects, Collections, and Mesh Elements.
- Intuitive Display System: Enhance visibility and organization by displaying each Group and Collection with vibrant colors in both the Viewport and UV Editor.
- Multi-Object Support: Handle complex scenes with ease, thanks to the flexibility of multi-object support for all created Groups.
- Efficient Import/Export: Facilitate compatibility and data transfer with seamless import/export between Vertex Groups, Face Maps, and Vertex and Color Zen Sets Groups.
- Sets and Parts Modes: Exercise versatile control over Mesh Elements with Sets Mode and Parts Mode, offering flexibility in group assignments.
- Workspace Tool: Quickly switch between Zen Sets Groups using the Workspace Tool, mimicking Zbrush Polygroups behavior for effortless selection and hiding in Parts Mode.
- Auto Groups Operator: Streamline your workflow by automatically creating Groups based on various conditions such as Type, Object Data, Library, and more.
- Enhanced Operators: Access a range of operators for tasks like creating Objects from Groups, Assigning Materials, Sculpt Masking, creating Modifier Masks, and more.
- Collection Manipulation: Effortlessly convert Collections to Empty objects and vice versa while preserving hierarchy and positions. Perform tasks like selecting Objects with specific attributes and renaming Collections.
- Batch Rename Functionality: Enhance project organization by efficiently renaming Collections and Vertex Groups in bulk.
- Zen Sets API: Leverage the power of the Zen Sets API with provided examples, allowing for advanced coloring and viewing options in both the Viewport and UV Editor.
- Quick Support: Join our Discord channel for prompt assistance and support during your workflow.
- Elevate your Blender experience with Zen Sets—a comprehensive toolkit for effective Group and Collection management in your projects.
