#### SkinFiner:

SkinFiner is a powerful photo editing software designed to simplify skin retouching with automatic skin smoothing, even skin tone adjustments, and natural eye bag reduction. It preserves skin texture while removing imperfections, offering professional results with minimal effort. The software works both as a standalone application and as a plugin for Photoshop and Lightroom. It features batch processing, and customizable presets and supports 16/32-bit color depth and full color management for precise color adjustments. SkinFiner enhances skin tone, brightness, and contrast, ensuring natural, high-quality portrait retouching.
