Capture One: Color by Sofia Karaivanskaya: Embark on a journey to master commercial photo processing with our comprehensive course on Capture One and Photoshop, tailored for beginners and seasoned photographers alike. This free course distills the essential techniques real commercial photographers use, presented straightforwardly without unnecessary complexities.

Who is this course for?

- Photographers are entering the realm of programs like Photoshop and Capture One for the first time.
- Practicing photographers aspiring to elevate their retouching and color skills to the standard of professional brand shoots.
- Retouchers aim to monetize their photo processing skills for brands from the comfort of their homes.

Why Capture One and Photoshop?

Widely adopted by renowned photographers globally, Capture One and Photoshop are the go-to tools for shooting advertisements featured on billboards and glossy magazine covers. There are no superior alternatives to these industry-standard programs.

01. CAPTURE ONE: BASE

- Understand directories and sessions, differentiating between them.
- Learn laptop connection and shooting through Capture One, including cost-effective alternatives to the TetherTool cable.
- Personalize your workspace for a seamless transition from Lightroom.
- Master ratings, filters, and selective sampling display.

02. CAPTURE ONE: COLOR

- Explore the role of color in picture perception and its conveyed message.
- Analyze images and deconstruct favorite references into components.
- Dive into vital Capture One tools, focusing on volume in the frame.
- Understand color editor, color balance, skin tone, and quick image toning techniques.

03. PHOTOSHOP: RETOUCH

- Customize the interface by removing unnecessary elements.
- Delve into retouching intricacies and understanding key considerations.
- Explore frequency decomposition and its simplest method.
- Harness the Mixer Brush as an indispensable tool.
- Achieve detailed skin elaboration while preserving texture.
- Learn to distinguish defects to remove from those to retain.

04. ALL INCLUSIVE!

- Comprehensive coverage of high-quality commercial photo processing.
- Merge knowledge from Capture One: Base, Capture One: Color, and Photoshop: Retouch for a holistic understanding.

Join us in unraveling the secrets of commercial photo processing, acquiring skills that transcend the ordinary. Elevate your photography game with this all-encompassing course designed for success.
