### What are Meridian Presets-TERRA PRESETS?

Meridian Presets' "TERRA PRESETS" is a collection of preset settings designed for photo editing in software such as Adobe Lightroom or Adobe Camera Raw. Presets are pre-defined adjustments that you can apply to your photos to achieve specific looks, styles, or effects with a single click. They are a valuable tool for photographers and image editors to enhance and stylize their photos efficiently.

Meridian Presets' "TERRA PRESETS" likely includes a set of these pre-defined settings that can be applied to your photos to achieve a particular visual style. The name "TERRA" suggests that these presets may be designed to enhance natural and earthy tones in photos, creating a specific atmosphere or mood. Presets can adjust various aspects of a photo, including color balance, exposure, contrast, saturation, and more.
