

Winsoft Zip for Android v2.7 for Delphi & CB 10.4-12 Athens Full Source

2025-01-02 12:14:40 [label](#) [我要反馈](#) [下载页面](#)

Winsoft Zip for Android provides developers with a robust solution for managing Zip files seamlessly within Delphi and C++ Builder applications targeting the Android platform. Leveraging the Zip4j library, this powerful tool offers comprehensive features for handling Zip files effectively.

Compatible with Delphi/C++ Builder versions 10.4 to 12, ensures broad compatibility across various development environments. Developers can easily integrate this library into their projects to facilitate Zip file manipulation, enhancing application functionality.

Users gain access to the complete source code with the registered version, enabling customization and further optimization to meet specific project requirements. Additionally, the library offers royalty-free distribution, allowing developers to include Zip functionality in their applications without additional licensing fees.

Key Features of Winsoft Zip for Android :

- 1. Utilizes the Zip4j library for efficient Zip file handling on Android
- 2. Compatible with Delphi/C++ Builder versions 10.4 to 12
- 3. Source code included in the registered version for customization and optimization
- 4. Enables royalty-free distribution in applications, minimizing licensing constraints and costs.
