

Location Pins and Text (Videohive 52412541) - AE Project

2025-02-10 16:38:32 label 我要反馈 下载页面

The **Location Pins and Text** for Adobe After Effects and Premiere Pro improves user experience, usability, and aesthetics by highlighting specific locations such as tourist attractions, restaurants, hotels, business branches, service centers, and more.

How to use templates to design a project to show tourist attractions?

You can use "Location Pins and Text" to design your project in After Effects.

The main features include 27 animated map pins, two versions (pins only and pins with text), easy controls, and compatibility with Premiere Pro 2022+ via essential graphics Mort files and After Effects CC 2021+. No plugins are required. The package also includes a universalizer and detailed video tutorials with voice-over.

Package information

This map enhancement template, last updated on May 27, 2024, is compatible with Adobe After Effects CC, includes After Effects project files and motion graphics template files, and supports universal expressions.
