**Save the World Ocean (Videohive 33869545):** Ideal for creating unique slideshows or photo displays in the original style of the ocean. The project should draw the interest of everyone to global issues like pollution, warming, and plastics, etc.

#### SAFE THE WORLD OCEANS

Marine pollution is a rising problem in our world today. Marine trash includes every manufactured product--mostly plastics that are disposed of at sea. Storm winds, litter, and inefficient waste management are all factors that are factors in the rising amount of garbage that, for the most part, originates from land sources.

We hope this template will raise awareness of the challenges caused by global warming. changing direction of the Gulfstream and pollution of the oceans and natural resources. The template is easy to implement: simply insert photos or text, then click to render.
