Significant to Understand

- Check You're using a variant of Photoshop the Action supports.
- Watch the movie tutorial to make sure you Possess your Photoshop file setup properly. A link to this tutorial can be Contained in the 'Readme.txt' file from the download.
- Use high-resolution photographs together with the Action for the very best results and to prevent mistakes. A perfect photo resolution is Involving 2000px -- 4500px.
- Utilize Jpeg graphics to conduct the Action on. Other document types like TIFF, BMP, PNG, PSD may cause difficulties with Actions, as Photoshop unlocks various attributes for various file types.
- In case a Sevenstyles Action carries a brush (.abr), pattern (.pat), or contours (.csh) document from the download, then it must be Loaded into Photoshop before enjoying the Action.
- Avoid using the Action on logos or clip Art fashion images as the absence of detail and color contrast may result in mistakes.

With problems with the Action?

- Double-check you've got your document setup Properly as shown at the start of the tutorial.
- Check the resolution of your photograph. If it's a low-resolution photograph (<1000px), choose the shortest period of your photograph And raise it to about 2500px or longer. This can help prevent mistakes and also Produce better outcomes.
- If You're still stuck, then please email me Using a screenshot of your whole Photoshop interface at which the mistake shows. Please let me know what sort of Photoshop You're using so that I can help You quicker. You will find my email address on the service page.

Produce Customized effects

Photo Effect Actions could be combined to make new outcomes. Follow these instructions below:

1. Run The very first Action in your photograph.
2. After You're pleased with the outcome, save your layout as a Jpeg picture.
3. Close Your Photoshop document and re-open the picture you just saved.
4. Now Run another Action on your own photo! This will then pile the next result on Top of this first.
