Adobe Animate Essentials: 2D Animation Fundamentals: Make your drawings come to life and experience the wonders of animation using Adobe Animate!

Entrance into a world full of trolls, dragons, and talking doggies is the norm for animator and storyteller Toniko Pantoja. Toniko has spent countless hours creating appealing characters in the last decade, directing animated shorts, and collaborating with blockbusters such as How to Train Your Dragon 3, Trolls, and Croods 2. Toniko's technical expertise and distinctive animation style have captured the attention of many viewers, allowing him to grow a fan base of over 335K on YouTube and Instagram.

In this course, Toniko draws from both his professional and personal animation expertise to show you the fundamentals of the tools in Adobe Animate so you can create lifelike characters and tell animated stories. With Toniko at your side, you'll learn an in-depth overview of the critical tools in Adobe Animate: Adobe Animate workspace and tips on how to use them as professionals.

When you work along with Toniko, You'll be able to:

- Learn the basics of animation, such as stretching, weight, squash, and timing
- Find out how to speed up and reduce the speed of any animated object
- Create connections between your animation's principal position
- Create an animated ball that bounces while exploring tools such as onion skins and the library
- export your final product to share on social networks or with your friends.

In addition plus, as Toniko animates alongside you in real-time, Toniko shares the secrets and tricks he wishes he had known when he first started using Adobe Animate.

You may be exploring animated animation for the first time, or you're looking to try Adobe Animate. After experimenting with other software for animation, the course will provide you with the essential tools needed to create the short film you want or an entire animated work.

You don't require any prior animation knowledge to enroll in this course. However, some drawing skills can help speed up your learning. To learn with Toniko, you'll require an internet connection, Adobe Animate, and an image tablet. You can draw inside Adobe Animate using a mouse if you don't own an iPad or a drawing device for more animation adventures. Explore Toniko's entire Animation Learning Path.
