

Blender Market - Knitting Generator v4.0 for Blender

2025-02-10 16:59:12 [label](#) [我要反馈](#) [下载页面](#)

Blender Market - Knitting Generator:

The **Knitting Generator** addon for Blender allows users to create realistic procedural knitting effects on any 3D model with just one click, without the need for UV mapping. This powerful tool streamlines the process, making it easy to apply intricate knitting patterns and textures effortlessly, saving time and enhancing workflow efficiency. Ideal for artists and designers, the addon automates the knitting effect generation, providing customizable options for detailed knit-like surfaces directly in Blender's modeling environment.
