A well-designed editing system can make you more creative as you are less occupied with the editing process. In my quest to design the top black and white preset I realized that good formula are essential. Silver 4 uses that knowledge to create formulas that surpass plugins.

There are many designs and tools available for black and white today. This is why I understand why people are skeptical of their benefits. However, there's nothing quite like Silver 4. It's a guarantee because they're effective. Make better black and white in the natural way and achieve better results in shorter time.
