Erika Brooke Film Pack Lightroom Presets:

Our presets are designed to offer a convenient starting point for your creative endeavors, rather than serving as a quick-fix solution. Inspired by the enduring charm of 19th-century film, our film pack infuses your images with vintage hues, subtle grain, and velvety skin tones. Each preset is meticulously crafted and extensively tested by numerous photographers across various equipment and lighting conditions, ensuring seamless results with just a few clicks. Please note that our Film pack is exclusively compatible with LIGHTROOM and is optimized for professional RAW format files.
