Miles Leavitt – The Nostalgia Presets:

The Nostalgia Presets are a set of four Adobe Lightroom Classic presets and four-grain modifiers, designed to add a cinematic, nostalgic feel to your photography. These versatile presets enhance color and light, capturing moods from warm golden tones and lush greens to deep blues and sharp midday sun rays. They're crafted to work well across diverse photography styles, from golden hour portraits to dark concert scenes, providing a finishing touch that elevates the emotional quality of each image. Designed for RAW images, they may require adjustments for optimal results, such as tweaking exposure, contrast, and white balance.
