**Epic Stock Media Trailer Force WAV-FANTASTiC:** Trailer Force shines with an accent on the classic and hybrid movie trailer sound design. Trailer Force mixes two styles to produce a unique sonic quality heard throughout the sound pack. Trailer Force is quickly a "go-to" addition to your audio collection when you work in post-production since you'll find a myriad of tools that can be utilized for various scenarios. Inside, you'll discover and experience the passion of handcrafted authentic, rich and distinctive tracks that blend modern trailer-sounding sounds.

### UCS Compliant & Soundminer Metadata

Labeling all sound effects is UCS compatible and divided into categories to facilitate navigation by logical folder structures such as Accents, Benders Booms, Braams Drones, Loops, Hits Risers, Signals transitions, and whooshes. In addition to UCS, Trailer Force features an extensive set of metadata in the files, using sound miner metadata. This helps you locate the perfect sound for the right time.

### Includes Entire Library In Multiple Formats

Each of the 564 sound files has been designed to help you make your life easier to produce faster, and they are available in 24-bit/96kHz .WAV format that ensures high-quality audio quality—additionally, the 44.1k 16-bit. WAV and Glued version of all the collection is available, making it unnecessary to change files. Premixed Trailer Force audio can be dropped into your film or game. Choose the format best suits your production, then make sure your film or game sounds great!
