Aescripts - Polka Dots Maker v2.1:

Create attractive, striking graphics using dynamic polka dot patterns; to get all of this, you can use the Polka Dot Generator for After Effects.

This tool also features advanced integrative options that allow for a seamless fit into the design workflow. The built in UI is also very intuitive, therefore making the task of using the tool significantly easier.

Seamlessly Manipulate Dots

- **One-Click Generation:** Instant creation of polka dot patterns with just a click.
- **Two-Dot Design (V2 Update):** Quickly generate two alternating dot designs for enhanced functionality.

Control Dots

- **Adjustable Angle:** Dots can be rotated relative to a set angle.
- **Configurable Scale:** The dots can be enlarged to virtually any size to enhance the design further.
- **Customizable Spacing:** Distances between individual dots can easily be modified.

Additional Aspects

- **Dot Speed Control:** With the use of a slider in between rows, speed can be controlled with ease.
- **Cross Animation:** Enables smooth and more fluid motion of the design.
- **Dotted Animation:** Directly within the layer, the contents of a dot can be modified with ease.
