### How to put titles, objects and effects in the background and foreground elements of our videos?

You can use "Magix Vegas Collection" to change the background.

### Where can I download the product?

After subscription, You can download it for free from here.

### AI-powered Compositing

Let Z-Depth perform the heavy lifting while you concentrate on bringing your videos to life. Include titles, objects, and effects within the background and foreground elements of your videos. No manual masking is required. A real time-saver for compositing!

### Automated masking

Making masks is easy using AI. There is no need to sit for hours playing around with your Bezier tool, simply sit in your chair and allow Smart Mask to do the grunt analysis frame-by-frame. It precisely tracks objects moving and allows you to play around with them in the editing.

### Colors that are perfect, every time

Make sure you have the right mood set for your video and adjust the hue, saturation, and luminance parameters until they are perfect, and avoid color drift or washed-out appearances.

### Save your footage

Don't let those videos go to waste! By using VEGAS Pro Edit you can eliminate the noise in your video, stabilize shaky video, remove flicker around the neon lights, and cover any black bars that cause irritation along the sides.

### Beyond the boundaries of sight

Blend live-action footage with computer-generated elements and animations that look real and 3D models. You can create seamlessly the interactions from the casting of shadows through to highly dynamic light effects and add even more realism and depth to your work.

### (In)credible effects

Whatever the depth or scope of your idea, this software provides the perfect canvas for bringing your vision to life. With more than 390 effects that you can choose from such as lens flares and blurs, and mind-bending mesh warps, it's clear that you are never out of options.

At the core of each VEGAS software is the all-new VEGAS Pro The creative device that meets all of your demands. Learn about its integrated timeline and control all aspects of content creation without having to leave the interface.

### SOUND FORGE & ACID

Polish and fine-tune the audio of your video to perfection, and then create your own soundscapes using SOUND FORGE. You can also make your own soundtrack using the highly intuitive loop-based DAW ACID to enhance the effects of your music.

### Mocha VEGAS

Discover the real possibilities of motion tracking with Mocha VEGAS and transform the ways you edit within VEGAS Pro. Use stabilization and planar tracking to fix motion-tracked masks in certain positions. They will be perfectly fixed throughout the duration of your project.
