- CREATE STUNNING VISUALS WITHOUT

EVER OPENING AFTER EFFECTS

- I am so excited to announce This Tour Visual Elements VOL two is officially here! Offering a new level of Tools to your tool belt - with distinctive textures, analog glitches, and much more Minimalist movement components.
- I put a Great Deal of love into This package and pops up the sophistication and detail with appearances which are Show-ready whether they are used by themselves or blended with other components - Providing you the ability to go right to your end customer (or series) and rescue Hours of work on the following job (all without having to open After Outcomes)!
- In 30fps, they're prepared For smooth playback any LED or projection rig in Guru Presenter, Ableton, Resolume Arena, or even alternative VJ Program.
- AND Needless to Say, combining With footage from Premiere or Final Cut (or anything editing applications you telephone House) yields some fairly mad outcomes also!
