**Matti Haapoja CINE LUTS 2.0:** I am pleased to declare CINE LUTS 2.0 - larger and better. I had been Motivated by my visit to Norway and excursion to Iceland, so I have made a brand new bunch of 12 LUTs dependent on the wonderful scenery in both of these excursions.

However, not only will you get the Standard LUTs however you also get a LOG Variant of every LUT. One for ordinary footage and also you for LOG footage. This can help accelerate your process much more. In this way, you do not need to do a lot tweaking and color adjusting, it is likely to look better off the bat!
