What is AI Newborn PRO – Intelligent Lightroom Presets?

The "AI Newborn PRO – Intelligent Lightroom Presets" is a collection of pre-configured settings created for Adobe Lightroom, a widely used photo editing software. The term "AI Newborn PRO" implies that these presets are specifically designed to enhance and optimize newborn photography, incorporating artificial intelligence (AI) for intelligent and nuanced adjustments.

Photographers specializing in newborn shoots can utilize these presets to streamline their editing workflow. The application of the "AI Newborn PRO" presets is expected to yield intelligent enhancements, bringing forth the best aspects of newborn photos and ensuring a professional and visually captivating final result. Typically, these presets may encompass adjustments for skin tones, softening effects, and other elements, aiming to achieve a gentle and pleasing aesthetic tailored for newborn photography.
