**Does this product work on Windowns and Mac Os?** We mostly include the operating system in the title. if it is not written, it will work on Windows, and you can for the Mac version.

- An 'Edge Course' project featuring a variety of characters for practicing
- Your layers should be colored to align with anchor points.
- Visualize the bounding boxes to help you identify your layers
- Draw loops for the bulk-parent layer or connect them to the null
- Utilize pre-existing parenting models via webs
- Unstack anchor points when there is an overlap between anchors
- Only work on the layers that you've selected
- Custom, saveable settings
- Quick-set menus allow users to run customized settings that can be used for one-time usage
- Future enhancements to the tool
