- 90Pro XL Exclusives

What is BLKMARKET – Burnt?

a product or collection of design resources called "Burn Baby Burn" that offers over 200 crisp papers and burnt and charred textures. This type of resource is commonly used by graphic designers, artists, and creatives to add unique and distressed elements to their projects.

Here are some potential features and use cases for a collection like "Burn Baby Burn":

Crisp Papers: High-quality images of papers with crisp textures can be used as backgrounds, overlays, or elements in various design projects to add a tactile feel.

Burnt and Charred Textures: Textures of burnt or charred surfaces can provide a distressed or grunge look to designs. These textures are often applied to give a sense of age, wear, or uniqueness to digital or print materials.

Creative Projects: Designers might use these resources in projects like posters, album covers, digital art, or any other creative endeavor where a distressed or textured aesthetic is desired.

Enhancing Realism: Burnt and charred textures can be applied to mockups, 3D models, or digital illustrations to enhance realism and create a weathered or vintage appearance.

Backgrounds and Overlays: The textures and papers could be used as backgrounds or overlays in photo editing, providing a layer of depth and interest to photographs.
