FKFX Sylab v1.0.0 (Mac):

Introducing SYLAB, the latest innovation in vowel filters from FKFX Audio, featuring the groundbreaking LFOGRID—an inventive LFO Generative System that acts as a catalyst for unparalleled sound design.

Similar to a cinematic journey in your sonic exploration, LFOGRID empowers you to effortlessly craft the perfect curves. Dive into various LFO styles at the basic level, unlock additional options within the Patterns level, and delve into specialized editing features at the advanced level.

Within each of the three tiers of LFOGRID, you can generate a multitude of new LFOs, offering you the flexibility to seamlessly incorporate them into your project with a simple click on the preview. Elevate your sound design experience with SYLAB and let LFOGRID redefine the way you sculpt and shape your audio landscapes.
