### What is Production Master Psytrance Evolution 2?

Production Master Psytrance Evolution 2 is a sample pack or sound library designed for music producers working in the psytrance genre. The description suggests that the pack contains a variety of sounds, including glitch sounds, arpeggios, and basslines, all of which can be used to enhance and create psytrance music.

The influence of well-known psytrance artists like Astral Projection, Vini Vici, Infected Mushroom, and others implies that the sounds included in this pack may align with the style and characteristics of these artists' music.
