MotionVFX - mStorytelling:

The "Cinematic Narrative Tools for Final Cut Pro" offers a comprehensive set of assets to enhance storytelling in documentaries and other visual projects.

The package includes 59 story-building presets, 5 LUTs, 50 titles, 8 transitions, and 2 effects, providing a wide range of cinematic tools such as typography, camera movements, and infographics.

Designed to help filmmakers capture authentic stories and engage viewers, these tools help create impactful and cohesive narratives. The package is compatible with macOS 12.6.5 and newer, requiring Motion 5.6.1 or Final Cut Pro 10.6.2, and supports both Apple Silicon and Intel chips. Visuals may slightly differ between FCP and DVR versions.
