Slide Transitions for After Effects VH-45799308: Slide Transitions is an attractive and highly animated template for AE. Including them in your slideshows, presentations, commercials, TV shows, trailers, films, film teasers, and promotional events such as YouTube and Facebook is so simple. Style them according to your brand using sophisticated color control. Your audience will be impressed by this short and creatively animated After Effects template—no plugins are required. A video tutorial is included.
