Moonbear – HALATION – FILM GLOW EFFECT for Final Cut Pro: Introducing Halation for Final Cut Pro, the ultimate film glow effect designed to replicate the viral red film glow popular among DaVinci Resolve editors. Unable to find this effect within Final Cut Pro, we took matters into our own hands and created it!

Halation allows you to effortlessly add an authentic red film glow to your shots with nine adjustable settings. Tailor the effect to your liking by manipulating and blurring the Red, Blue, and Green channels in the RGB color space.

Halation is the secret behind the distinctive look and feel of films, contributing to that dreamy or glorious aesthetic—it's all about the glow! Now, with Halation, you can easily incorporate and customize authentic halation effects directly within Final Cut Pro. Elevate your footage and achieve that sought-after film glow effortlessly!
