EVO PDF Viewer control for ASP.NET can be linked into any ASP.NET application to add PDF visualization and manipulation capabilities to your ASP.NET application.

EVO PDF Viewer control for ASP.NET can be linked into any ASP.NET application to add PDF visualization and manipulation capabilities to your ASP.NET application. With EVO PDF Viewer for ASP.NET you can display a PDF from a specified URL or from stream of bytes into the client browser, control PDF security options to disable content copying or printing. The integration is extremely easy. The free Adobe Reader is required on the client computer where the control is displayed in browser.

### EVO PDF Viewer for ASP.Net Great Features:

- ASP.NET server control and C# samples
- Display a PDF document given as a stream of bytes
- Display PDF documents from a specified URL
- Navigate and print the document from browser
- Show or hide viewer toolbars
- Show or hide viewer scroll bars
- Show or hide viewer navigation panel
- Disable PDF document printing or copying
- Royalty free development libraries and samples
- Support for .NET 4.0 framework and later
- Documentation and C# samples for all the features
