Action Hit Effects (Videohive 45637372): Create a stunning shake effect in your videos! Action Hit Effects is a collection of shake-related camera presets for Davinci Resolve.

You can select from 25 pre-made macros or make your own. Move the mouse to trigger the effect of zooming in on the target, adjust the camera shake, direction intensity, flash level, and RGB glitch amount, and randomize the entire thing.

These speedy presets great for films with cinematic themes or music lyric videos and gaming or sports introduction or trailer for a film. Using it to interlude between 2 clips or create stunning title animations using glitches is also possible.

An essential toolkit for every YouTube channel filmmaker, gamer, or videographer. It is available in both studio and free versions. Video tutorial included.
