Corporate Typographic Stories VH-33983117: After Effects pack to create a professional corporate promotional or business event promotion, IGTV program opener for your channel, business presentations, or separate components for presentations and videos. It comes with 14 story templates.

The trendy typography with a large text is attractive both on a television screen and on social networks. We accentuated the minimalist design with a large font and bold graphics for text with smooth motion. You can personalize it by using any typeface.

These templates are easy to modify: modify the text, then insert your media, if required, and then enjoy the final result. You can set your colors using Color Control and the speed for the video, add your text, insert your music and font, and you'll get vertical videos that reflect your unique design and feel.

- Color control
- Vertically Resolution: 1080 x 2024
- Fast render
- 100% After Effects
- After Effects CC18 and above
- No plugins required
