HUD Covert Operations Communication2 VH-51688019: Introducing HUD Covert Operations, drawing inspiration from Territory Studios' Mile 22, designed explicitly for clandestine services such as the CIA, MI, KGB, RAW, and ISI projects, following a minimalist approach.

HUD UI Covert Mission is meticulously designed and efficiently organized, with all main screens and asset elements neatly grouped into a Final Folder, making it incredibly easy to find what you need and to assemble your high-quality, professional HUD design. Crafted with After Effects shape layers, the vector-based elements are straightforward to edit and resize. The original size is Ultra HD 3840 X 2160, but it can be scaled to Full HD/4K as it is vector-based.
