

## Globe Plants – Bundle 30 – Interior Pot Plants

2025-02-10 16:51:48    [label](#)    [我要反馈](#)    [下载页面](#)

**Globe Plants – Bundle 30 – Interior Pot Plants:** This Bundle 30 contains 14 pot plants that are 3D indoors for interior design or ornamental purposes. There are 78 distinct hand-scanned photos of realistic, high-quality plant models in 3D available in various shapes that can be used in most of your scenes. 3DS MAX BLENDER, CINEMA 4D, and SKETCHUP formats allow you to make the slightest effort to load and render your projects or scenes; using the GrowFX formats, you have unbeatable flexibility to modify the plants as you'd like.

The models were created in the most detailed way and accurately represented species used in Corona Renderer, V-Ray Renderer, and FStorm Renderer in 3D Max.

The FBX file format we offer. FBX file format includes all textures, which can be transferred to any other software.

Our SketchUp file type is compatible with three rendering engines: V-Ray, Thea, and Enscape, including proxy files. SketchUp is entirely suitable for Skatter, and V-Ray 5 is also compatible.

Users also have the choice to select Blender, which comes with cycles, and Cinema 4D with V-Ray 3.6 and Corona Renderer.

The models we use for the MESH model require 3D Max 2018 or higher in addition to minimum Corona 3.0, V-Ray 3.6, and Form 1.35. We also support the entire Forest Pack library for all three renderers.

### List of Species:

- Aglaonema Nitidum 'White Stem'
- "Polly" Alocasia x amazonica 'Polly'
- Dracaena surculosa 'Punctulata'
- Ficus elastica 'Belize'
- Ficus Triangularis 'Variegata'
- Monstera adansonii
- Monstera deliciosa 'Borsigiana'
- Philodendron moonlight
- Philodendron pedatum 'Florida'
- Philodendron 'Rojo Congo'
- Philodendron subincisum
- Platycerium grande
- Thaumatococcus bipinnatifidum
- Zamioculcas zamifolia
